

7 March 1951

MEMORANDUM FOR THE RECORD

SUBJECT: Informal Discussion with Chief,
Regarding "Disposal"

1. Chief, [redacted] discussed the subject of "disposal" with [redacted] this date, at which time the following items were discussed:

I a. [redacted] The definition of "disposal," in brief, was understood to mean the providing of a facility to keep the "disposed" person in security until his knowledge of [redacted] operations is no longer of value to the enemy.

b. These people will consist of:

- (1) Blown agents.
- (2) Exploited agents.
- (3) Difficult defectors who may wish to redefect.
- (4) Defectors from various agent-training programs.

c. Chief, [redacted], mentioned that in considering a solution to this problem, the idea of isolation of these people in any one place or in a number of places was difficult, in that sooner or later they would rebel and present complex problems. It is his desire that [redacted] investigate some method of treating such people in a way that would cause semi-permanent amnesia for a period of approximately one year.

d. [redacted]
